

Digital Programmable Thermostat

Tempra-Sure®

MODEL TH400024 SERIES

This high-capacity TRIAC thermostat combines unbeatable accuracy and silent operation

APPLICATION

Tempra-Sure® digital programmable electronic thermostats can be used to control electric baseboards, convectors and radiant heaters. 100% silent operation is ideal even for bedrooms. Unsurpassed temperature control eliminates temperature swings which means you are comfortable at lower setpoint. Comfort at a lower setpoint saves money on heating bills.

FEATURES

- High-capacity electronic thermostat (up to 4000W @ 240V)
- Timeless design compliments any room
- Ultimate temperature control the most accurate type of thermostat on the market ($\pm 0.15^{\circ}\text{C}$ / 0.27°F)
- On-screen heating power indicator gives at-a-glance verification of power being used
- 2-wire non-polarized connection means fast, hassle-free installation
- Temporary bypass enables temperature override without changing programming
- Battery-free backup means no re-programming thermostat after power outage
- Can be used to control baseboards, convectors and fan-forced heaters
